

Starting Tuesday
December 1st

From 3:30 to 5:00

Please respond with the number of students that will be attending each session no later than Thursday 11/19/09.

Middle School After School Programs at the River Valley Technical Center

Web Site Design: Design your own website! This 4 week session will take you through the process of website design. At the end of the series you will have a personal website to share!

Firefighting and EMT intro: This is a 4 week session that will give students the opportunity for some hands on experience with firefighting and EMT training! The sessions will end with a trip to the fire station in Springfield.

Horticulture Wreaths and Centerpieces: Come in December and make holiday arrangements in the horticulture department! In these two hands on sessions students will have an introduction to the green house/florist industry. Students will cut their own balsam branches and use natural materials to create a wreath and a centerpiece that they can take home with them. This is offered 12/8 and 12/15.

Welding with Mr. Fuller: In this three week session students will create a picture on a computer and have it cut out using an automated plasma cutting machine. The project will be finished using hand tools and coated with lacquer. A demonstration of TIG or MIG welding will also be included. *Requirement: Student must wear long cotton pants (dungarees or similar), long sleeved shirt, and hiking/work boots (NOT sneakers).* This is offered 12/1, 12/8 and 12/15.

Please respond with the number of students that will be attending each session no later than Thursday 11/19/09.
